Dana,

I haven't seen anything back on our funding request and wanted to be sure you had received the information you needed for moving forward. As you might expect, our existing funds continue to dwindle. Thank you, lw

Lisa, et al:

Below is an updated, detailed breakout for the payroll and travel funding requests submitted yesterday. These are based on current burn rates for the response (see attached Burn Rate Table). The Regions continue to deploy additional employees each day so this information is a staffing snapshot based on best available information. At this time, we cannot anticipate when any ramping down would occur. Estimates are based on two week deployments and ongoing work for and to provide needed support thru at least the end of the FY at current staffing levels above and beyond our current available balances in 303DC6 accounts.

Also attached is a bulletized list of response work to continue through the end of the fiscal year/response. Work is divided by region and includes an itemization of EPA staff and contractors involved with this response. A total of 185 resources are currently deployed or supporting the GKM response. - lw

Lisa,

As detailed below, Regions 8, 6, and 9 are requesting a combined **Deliberative Process/Ex. 5** for the Gold King Mine Response work. This is anticipated to cover funding of response needs through the remainder of FY 2015. Obviously, as we better understand the nature of response activities needed we will be able to refine our estimates. All 3 regions coordinated this cost estimate/request and can be contacted if there are any questions. Thank you for your patience in receiving this information. - lw

Subject: Information needed for Gold King Mine release

Ben and Laura-

Great discussion this morning. We have confirmed that the 9R funds can be used for payroll (YAY).

As you are gathering your estimates, please be sure to include what is listed below. OEM will need these estimates and timeframes before we can go forward to the Budget office.

- 1) the amount estimated for extramural for R8 and if this includes work in R 6&9, if not please include their estimates;
- 2) the amount estimated for overtime for R 6,8 & 9;
- 3) the amount estimated for site travel for R 6, 8 & 9;
- 4) Timeframes. If you can segment the work/ needed resources or estimate this much payroll, travel, contractor costs etc will get us through ?

Thanks

-lisa
